1 Description

Computer and various digital devices nowadays are indispensable for us. However, cleaning them with improper tools causes the scratches on their LCD screen that is not only harmful to our eyes but also reduce the lifetime of the LCD. In addition, dust usually accumulates at the corners and gaps of these devices and is hard to clean. Hence, choosing the proper cleaning tools is the most important step in maintaining LCD and other digital devices.

This is a dedicated cleaning kit designed for the cleaning and maintenance of LCD and other digital devices. It consists of Ultra-Fiber Cloth, Enzyme Cleaner and Cleaning Brush. Regardless of the fingerprints and oil spots are on the LCD screen or the dust in the corners and gaps of the computer, they can be easily cleaned. This product is applicable to computer, digital device, camera and various precision electronic products. It can completely satisfy cleaning and maintaining requirements.
