FOR IMMEDIATE RELEASE

Addition of the Odyssey 345, lightweight laptop stand and additional cooler.

Maarheeze, The Netherlands, 15-10-2013. Introducing the Odyssey 345 laptop base-cooler and ergonomic stand is equipped with a large 140mm cooling fan. Additional laptop/notebook cooling is a must have these days, especially when working with the laptop on your lap. When no base-cooler is used the notebook may overheat and shut down. Also research from Yefim Sheynkin at the State University of New York has found that the heat from your laptop can elevate the temperature of your scrotum by up to 2.8 degrees which demonstrated link between high testicular temperature and infertility.

The Odyssey 345 laptop base is formed out of lightweight plastic, topped with an aluminum black mesh for unrestricted dissipation of the laptop/notebook heat. The ergonomic design and anti-slip features of the Odyssey series provide a comfortable computing experience. There is no need for an external power adapter, powered by your laptop's USB port (cable included). The Odyssey 345 is plug and play and ready to cool down your laptop or notebook alike. Compatible up to 15,4-inch large laptop computers makes this product the universal choice for laptop cooling and ergonomic use at home, in the office or even on the go.

Main Features:

- Active cooling by one 140mm silent DC fan
- All lightweight metal surface for better cooling
- Stylish and portable structure
- Accommodates 12- to 15,4-Inch large laptops
- Gentle slope improves typing comfort and raises screen
- Extended non-slip protective pads on the base
- Extends the life of laptops and battery efficiency
- Backed by 2 year manufacturer service warranty

Compatibility:

Universal compatible with 12-inch up to 15,4-inch notebooks and laptops of any make.

MSRP:

USD 23.95 / EURO 17.95 (ex VAT)

Product Includes :

* User manual * USB Cable * Spire Badge
